INTRODUCTION.....	6
1. FUNDAMENTALS OF logistics.....	8
1.1. Logistics activities and logistics systems.....	9
1.2. Definitions of logistics and logistics concepts	10
1.2.1. <i>Definitions of logistics</i>	10
1.2.2. <i>Logistics concepts</i>	12
1.3. Logistics chain	12
1.4. Logistics goals and functions	15
1.5. Key logistics activities	16
1.6. Logistics costs	20
Control questions	23
Resources	23
2. CUSTOMER SERVICES	24
2.1. The concept of customer service.....	24
2.2. Role of customer in the customer service system	27
2.3. Components of customer service	28
2.3.1. <i>Pre-transaction elements</i>	29
2.3.2. <i>Transaction elements</i>	31
2.3.3. <i>Post-transaction elements</i>	37
2.4. Strategy of customer service	40
2.5. Selected types of customer service strategies	44
Control questions	48
Resources	48
3. PROCUREMENT LOGISTICS.....	50
3.1. Development and functions of purchasing.....	50
3.2. Definitions of purchase	54
3.3. Purchasing goals.....	56

3.4. Supply policy tools.....	58
3.5. Research of purchasing market	58
3.6. Choice and evaluation of suppliers	60
3.7. Supplier relationship management.....	64
3.8. Managing purchase costs	66
Control questions.....	69
Resources.....	69
4. INVENTORY MANAGEMENT	71
4.1. The subjects of inventory management.....	71
4.2. Basic inventory concepts.....	73
4.3. Types of inventory.....	75
4.4. Elements of inventory management.....	79
4.5. Measuring the effectiveness of inventory management.....	82
4.6. An impact of demand model on inventory management ...	83
4.7. Inventory-related costs.....	85
4.8. Characteristics of bad inventory management.....	86
Control questions.....	88
Resources.....	88
5. WAREHOUSING AND HANDLING	89
5.1. Use of supply and distribution warehouses.....	89
5.2. Functions of a warehouse.....	92
5.3. Types of warehouses	95
5.4. Warehousing strategy	98
5.5. Warehouse operation.....	100
5.6. Measuring productivity of warehouse operations.....	100
5.7. Characteristics of the innovation process storage systems....	102
5.8. Packaging	103
Control questions.....	109
Resources.....	109

6. TRANSPORTATION AND SHIPPING.....	111
6.1. Transportation and basic types of transport	111
6.2. Criteria for choosing the right transportation system.....	118
6.3. Functional efficiency of transport	118
6.4. Roles of shippers and carriers in transportation.....	121
6.4.1. <i>Consignor (shipper) and consignee</i>	121
6.4.2. <i>Carrier</i>	122
6.4.3. <i>Freight forwarding</i>	123
Control questions	125
Resources	125
7. GREEN TRENDS IN LOGISTICS.....	127
7.1. Current trends influencing logistics	127
7.2. Implementation of green logistics activities in SMEs.....	131
Control questions	135
Resources	136
RESOURCES.....	137
